1.- SUMMARY

RESULTS

- Total revenue was €97,2m, 2,4% better than in 2015. Income in Land and Homebuilding has reached €7,1m and Commercial Property has gone down €-4,8m due to the office building “Los Cubos” being vacant.
- EBITDA has reached €41,8m vs €40,5m in 2015. It has improved by 3,3%.
- As of 31 December 2016, earnings before taxes reached €145,8m and net result (Group share) was €115,7m. This result reflects the following extraordinary impacts:
 - As of 31 December 2016, an independent asset valuation of the Residential portfolio concluded with its lesser value, €65m in homogeneous terms (not considering the €20m of finished product sold). Provisions for an amount of €3,3m were made against finished product and an amount of €43,9m against the land bank value (land bank and land with residential developments under construction).
 - Positive change in value of property investments reached €49,2m.
 - A positive result of €113m is due to haircuts applied to the refinancing of the Residential portfolio debt and to the equity loan acquired by Inversora Carso from Sareb, €72m and €41m respectively.
 - The impossibility of recovering a debt related to a land sale has been recognized (the debtor is insolvent). Provisions for an amount of €5,5m were made.
- Recurrent net result (Group share) attributable to the parent company, above-mentioned extraordinary impacts excluded, reached €41,48m vs €7,59m in 2015.

CAPITAL INCREASE

- Last October, the Board of Directors approved a capital increase for €147m, issuing and putting into circulation more than 184 million new shares at a price of 0,8 Euro per share.
- Once the capital increase completed, the company major shareholders' stake is the following: FCC: 36,925% and Inversora Carso: 33,844% (Inversora Carso controls 70,769% considering direct and indirect shareholding).

INDEBTNESS

- Following this last capital increase, Realia has repaid the total (€20,4m) of the equity loan acquired by Inversora Carso from Sareb and 80 million Euros of the Caixa loan bound to the Residential portfolio.
- Realia has reduced its gross financial debt by €403m, reaching €851m, 32% lower than in 2015.
- Following the debt reduction, interest rates decrease and haircuts applied to the restructuring of the loan acquired for the Land & Homebuilding portfolio, the financial result in 2016 has reached €106m (haircuts for €113,6m, financial income for €0,5m and expenses for €-8,2m) vs €-19,4m in 2015.
- As of 31 December 2016, the weighted average interest rate on gross debt reached 0,54% vs 0,98% in 2015.
- As of 31 December, Realia has a net financial debt of €750m, 30% lower than in December 2015 and a *loan to value* (LTV) of 40,9%.

ASSETS VALUATION

- As of 31 December 2016, asset valuation (GAV) amounted €1.833m. In absolute terms, 1,4% lower than in December 2015 and it is due to adjustments on land valuation and stock reduction of finished product. In homogeneous terms, 0,3% lower than the previous year (residential finished product sold non-included). The portfolio of rental assets has increased its value by 4,4%.
- As of 31 December 2016, the Net Asset Value (NNAV), following adjustments for the capital increase of €147m (completed in January 2017), reached €805m vs €552m in 2015. In unitary terms, it reached 1,25 Euro per share, 4% higher than the previous year (1,20 Euro per share).
- 80% of the assets value is related to the Commercial Property portfolio (€1.469m) and the remaining 20% to the Residential portfolio.

COMMERCIAL PROPERTY

- Gross rental income (expenses charged to tenants non-included) were €58,9m, 5% lower than the previous year. It is mainly due to the office building “Los Cubos” being vacant (building for sale). In homogeneous terms (“Los Cubos” not included), occupancy and rents have improved slightly. Rents have increased by 2%.
- Overall occupancy levels reached 94% vs 91,5% in 2015. Office buildings occupancy reached 94,5% and Retail & Leisure portfolio reached 91,2%.
- In 2016, there hasn't been any investment or divestment transaction, excepting for the enlargement of a warehouse (5.000 sqm) in Agoncillo (Logroño),

LAND AND HOMEBUILDING

- Realia has delivered 96 units for a total amount of €19m, 45% better than in 2015 (€13,1m and 71 units).
- As of 31 December 2016, there is a stock of 490 units (homes, small retail and offices) finished non-delivered (20 pre-sold). There are also 41 land plots for single-family housing for sale in a development.
- Realia land bank has a buildable area of 1.852.040 sqm, most land is located in Madrid and Centre area.

- Company total revenue amounted €97,2m, 2% better than in 2015. It is mainly due to improvement in the Residential business sales (€19m vs €13,1m in 2015) and despite lower Commercial Property income (€58,9m vs €62m) due to the office building “Los Cubos” being vacant (building for sale).

- Even though the gross margin in the rental business has gone down, EBITDA has increased by 3% (€41,8m vs €40,5m in 2015), as a consequence of better margins in the Residential portfolio and cost reductions.
- Financial result in 2016 reached €106m, due to haircuts for €113,6m, financial income for €0,5m and expenses for €-8,2m vs €-19,4m in 2015.
- Provisions have reached €-49,7m, due to adjustments in stock of residential finished product and in land bank, as a consequence of the new valuation and deterioration for commercial operations (impossibility of recovering a debt related to the sale of a land to a Company which is insolvent at present).

Breakdown provisions (€mm)	2016
Reversal of provisions residential finished product	3,0
Residential finished product	-3,3
Land with developments under construction	-5,8
Land	-38,1
Others (clients, proceedings, ...)	-5,5
Total	-49,7

- The new criteria of real estate investments valuation (rental assets), at a fair value, has given a positive result of €49,2m.
- Following a criteria of prudence, tax credits, for negative tax bases, not activated at 31 December 2016, are €80m.
- Earnings before taxes reached €145,8m vs €39ms in 2015.
- Net result for the Group was €115,7m vs €17,2m in 2015.
- Recurrent net results reached €41,48m vs €7,59m in 2015 (haircuts and variation on the fair value of property investments and provisions not included).

7.- ASSETS VALUATION

- As in previous years, the assets valuation has been performed by two independent appraisers: CBRE (CB Richard Ellis) has valued the portfolio of Realia Patrimonio and subsidiaries and TINSA has valued the portfolio of Realia Business and subsidiaries.
- TINSA has implemented the Appraisal-Valuation ECO Method (according to Ministerial Order ECO/805 2003). This criteria considers the sustainable collateral value. It follows a criteria of prudence in the different methods of valuation, highlighting the valuation of not sectorized land as rural land.

- Total IAS rental income (including expenses charged to tenants) reached €74,5m. It has decreased by 4,2% due to a loss of income for the office building “Los Cubos” being vacant (4 million Euros a year).
- Commercial Property gross IAS margin reached €50,6m, which implies a margin on rents of 85%.
- Like for like, rental income has gone up 2% and the global occupancy has improved from 91,5% to 94%. As the following charts show, office building “Los Cubos” is not included.
- Like for like, office and Retail & Leisure rental income has improved by 1,8%.
- According to geographical situation, occupancy and rents have increased in Madrid (CBD & BD) and in Torre Realia Barcelona.
